

9/18/22

One-Minute Madness

Estimated play time: Approximately 15 minutes

Number of players: Unlimited

Supplies needed: Scoring board/pad; noisemakers

Suitable for visually impaired players

Overview:

One question. One minute. Multiple answers. In One-Minute Madness, a question is asked that has multiple answers (usually anywhere from 5 to 100+). The goal is to see how many correct answers your players can come up with in one minute.

How many things that come in pairs (or in twos) can you come up with in one minute? Note: Answers such as *GLASSES* would be considered technically correct, because, despite being just one item, they are referred to as “a pair.”

Instructions:

This game can be played several ways:

- Teams of players write down as many answers as they can in one minute, each team getting one point per correct answer;
- Individual players write down as many answers as they can in one minute, scoring as above; or
- All players just shout out answers in a free-for-all style with no scoring.
