Estimated play time: Approximately 15 minutes

Number of players: Unlimited

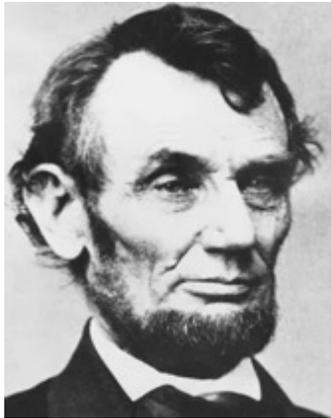

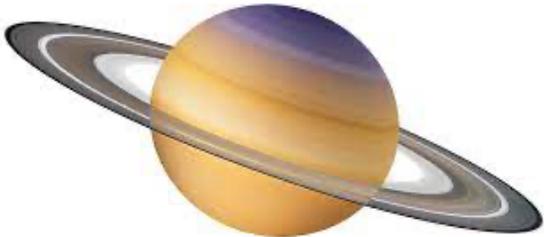

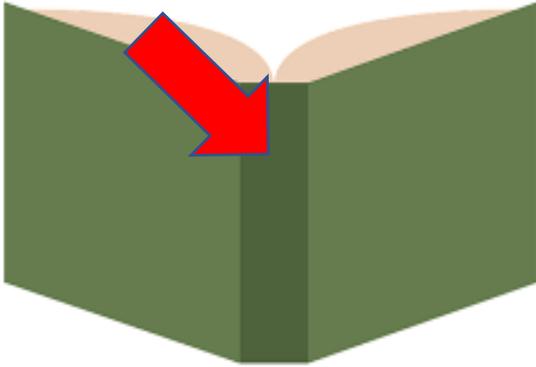

Supplies needed: Scoring board/pad; noisemakers

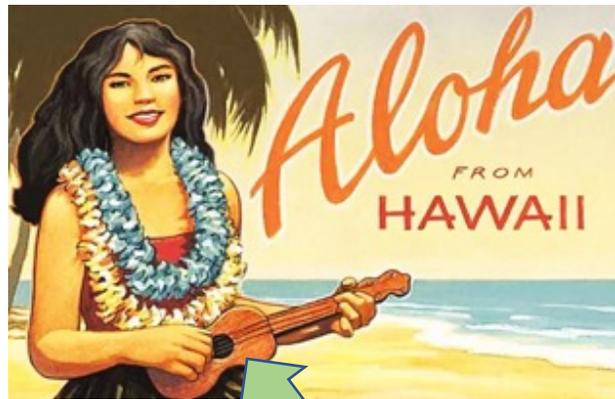

Overview:

Given fifteen images, can you find the five categories that are depicted and the three images that belong in each category? For example, if among the pictures you see *a taxi*, *a ski*, and some *spaghetti*, they might belong in the category “*Words that End in the Letter I.*” Or, if you see the image of *a cuckoo clock*, *a picture of former Vice President Dan Quayle*, and *a construction crane*, they might all belong in the category “*Birds.*” Each image will be related to only one of the five categories. Note: In some instances, the spelling of the image may differ from the spelling of the actual answer – as in the Quayle/Quail example above. The pronunciation, however, will always be the same.

Instructions:

There is no scoring for this game. Print in the best quality printing available to you (color is best, but black and white should work, too) the following two pages and pass them out to each player. If you want to save on the color printing, two players can share one document. If you have the technology, you could also project the images on a screen.
