---

Estimated play time: Approximately 15 minutes  
Number of players: Unlimited  
Supplies needed: Scoring board/pad; noisemakers  
Suitable for visually impaired players.

## Overview:

Alma is a great traveler, but a really bad speller. She's made a list of all the places she'd like to see (cities, countries, bodies of water, landmarks, etc.), but has misspelled every location on her list by one letter. Can you help fix her list by changing one letter of each word, without changing the order or the number of the letters? For example, if the place on Alma's list is *Now Work*, it should be changed to *New York*.

## Instructions:

There's no scoring on this game – just play for fun!

We strongly recommend that each word on Alma's list is written on a whiteboard or large pad of paper so that all players can see it. If they have trouble coming up with an answer, you may want to tell them which letter is the one to be changed as a hint.
