## Overview:

Homework games usually differ from our typical game formats in that they are meant for individual play and will often require pencil and paper to solve. However, with a little adaptation, you can usually use them for group play as well. For homework games, we recommend that you hand out the game page (but not the answers) for your players to take home. Perhaps you can post the answers on a bulletin board or in the elevator a couple of days later.

## Instructions:

Unscramble the letters in each line correctly and you'll come up with a list of things found in and around the kitchen. (Note: The number in parentheses indicates the number of words in the answer.)
