

9/6/26

The Shape of the World

Estimated play time: Approximately 15 minutes
Number of players: Unlimited
Supplies needed: Scoring board/pad; noisemakers

Overview:

How many countries can you identify only by their shapes? If you get half of them right, you're doing great! *(Note: The countries are NOT drawn to scale.)*

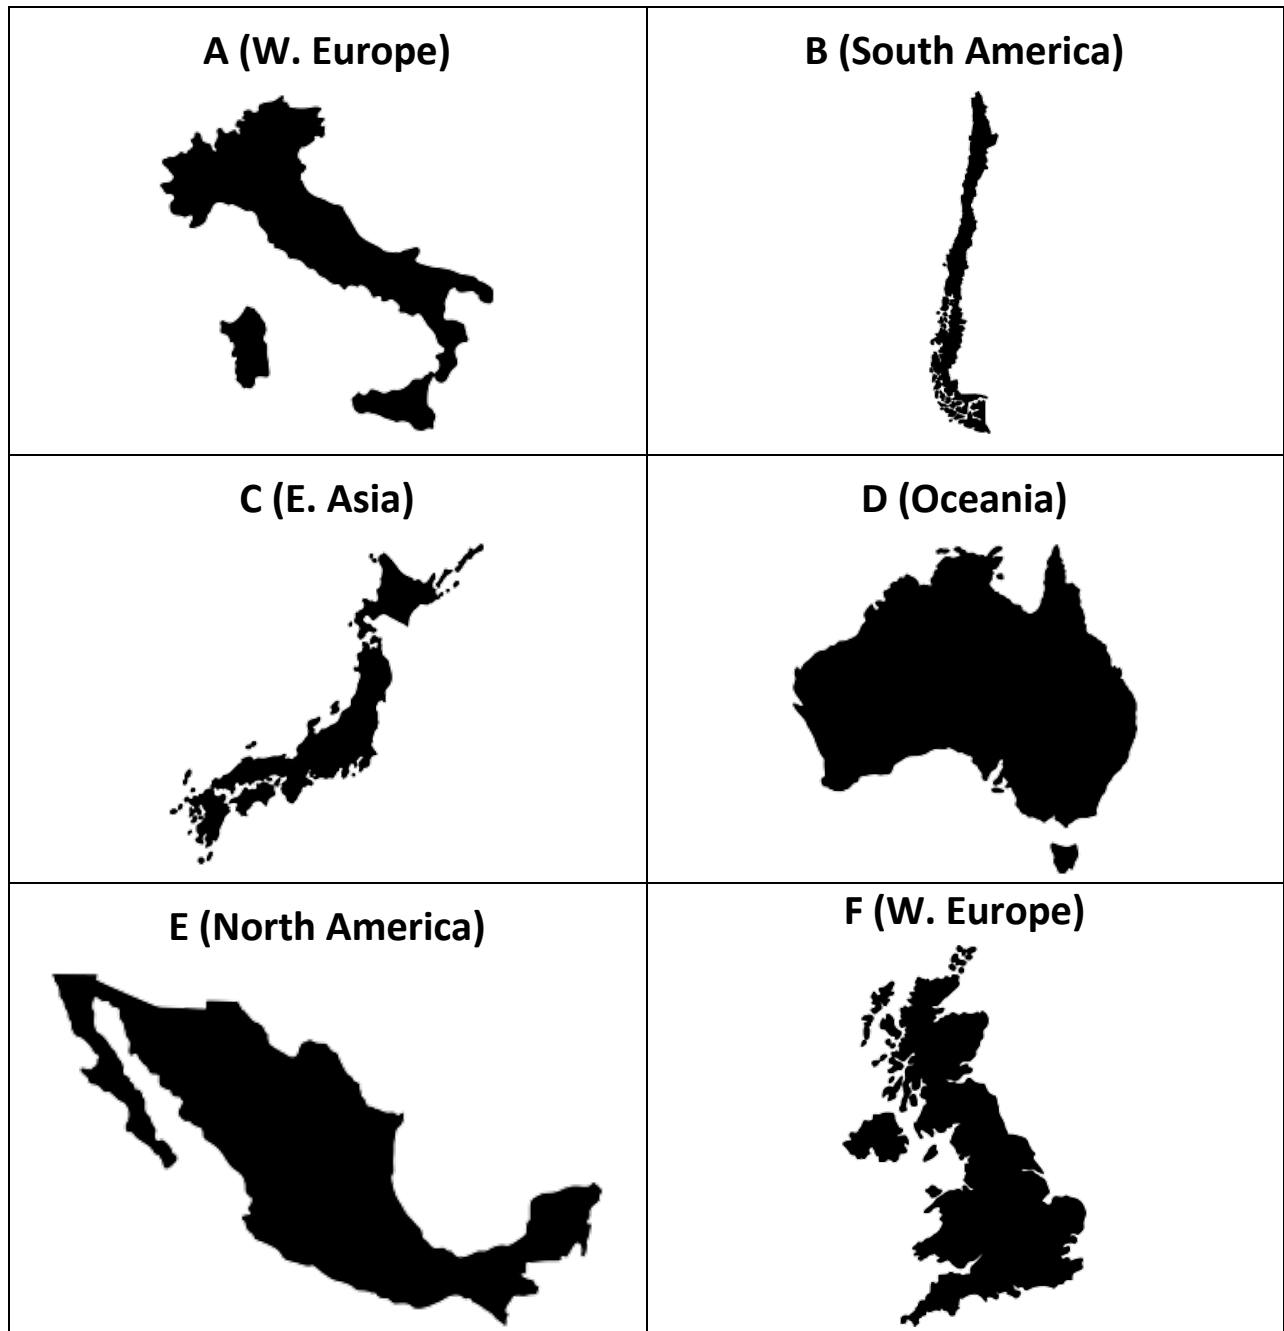

Instructions:

1. This game can be played by individuals or in teams.
2. Draw players' attention to the first clue and ask them what state it is. Discussion is permitted among teammates. Prior to the start of the game, a method to signal when a team is ready to answer must be determined. Ringing bells and New Year's blowers are just two inexpensive noisemakers. Raised hands work, but the host must be vigilant to watch for whose hand went up first. The host always has the final say in any disputes.
3. After a player/team is recognized as the first to signal, they may give an answer. If the first answer is incorrect, the other teams may "buzz" in and answer.
4. Scoring: Give 10 points for each correct answer.
