

5/31/26

Visual Words

Estimated play time: Approximately 15 minutes
Number of players: Unlimited
Supplies needed: Scoring board/pad; noisemakers

Overview:

Overview: In this game, we provide twelve pictures and twelve parts of words. The goal is to put one picture together with one word part to come up with twelve new words. For example:

land

The picture of the *FIN*, plus the word part *land* makes the word *Finland*. Three important notes:

1. In some instances, the pronunciation might not be perfect, but the spelling will always be correct.
2. Each picture and each word part will be used once.
3. Either the picture or the word part can come first.

Instructions:

Print out (in the best quality printing available to you – color is best, but black and white should work, too) the following pages and pass them out to each player. If you want to save on the color printing, two players can share one document. If you have the technology, you could also project the images on a screen.
