

6/30/24

This Week in History

Estimated play time: Varies Number of players: Unlimited

Supplies needed: Scoring board/pad Suitable for visually impaired players.

Overview:

This weekly quiz looks at historical events for each day of this coming week – just a question or two per day. You can choose to make this a standard group game ... or you might think about posting the questions for each day – perhaps in the dining room or the elevator – to inspire participation even from those residents who don't join in on the group game activities.

Instructions:

- 1. This game can be played by individuals or in teams.
- 2. Read the first clue. Discussion is permitted among teammates. Prior to the start of the game, a method to signal when a player/team is ready to answer must be determined. Ringing bells and New Year's blowers are just two inexpensive noisemakers. Raised hands work, but the host must be vigilant to watch for whose hand went up first. The host always has the final say in any disputes.
- 3. After a player/team is recognized as the first to signal, they may give an answer. If the first answer is incorrect, the others may 'buzz' in and answer.
- 4. Keep score (10 points for each answer) after each question is answered correctly. Play until all questions have been asked and answered.
